Date: 6/20/13

Dear Mr. Jones:

Governor Early informed me that you (U. S. G. S.) had not received a formal letter/resolution indicating a decision by Council approving the proposed underground mining of sites identified as NJ-45, P-13 and P-15. We did converse and correspond with Anaconda on March 2, 1981, as per our letter dated same and we provided Marc Nelson with a copy of our correspondence. If you need something more, please advise.

Sincerely,

PUEBLO OF LAGUNA

Ron J. Solimon

Re: Proposed Underground Mining of Sites identified
as NJ-45, P-13 and P-15.

Dear Mr. Lynn:

This letter will confirm your telephone conversation with Mr. Ron Solimon on this day. The Council has decided to give its approval for the proposed future underground operations identified above. The village of Paguete specifically requested that you continue to repair the damages to homes due to blasting. I would like a response to this request as soon as possible.

I would like to thank you for your attendance at our Council meeting on February 23, 1981, and we look forward to continued cooperation.

Sincerely yours,

PUEBLO OF LAGUNA

Harry D. Early
